Ideation Phase
Define the Problem Statements

Date	19 October 2022
Team ID	PNT2022TMID18834
Project Name	Statistical Machine Learning Approaches to Liver Disease Prediction
Maximum Marks	2 Marks

Customer Problem Statement Template:

Create a problem statement to understand your customer's point of view. The Customer Problem Statement template helps you focus on what matters to create experiences people will love.

A well-articulated customer problem statement allows you and your team to find the ideal solution for the challenges your customers face. Throughout the process, you'll also be able to empathize with your customers, which helps you better understand how they perceive your product or service.

Example:

Problem Statement (PS)	I am (Customer)	I'm trying to	But	Because	Which makes me feel
PS-1	The affected person feel	Try to open any web	But on the time	They feel very sad go	Thus the customers need to go to hospital

	sum symptoms, they are jaundice, abdominal pain, itchy skin and etc., they are our customer	application in liver disease prediction	blood test report is not available for customer	to check the blood test and get report	for checkup and check in internet any other predictor
PS-2	Those person are already affected then check for any improvement	Try to checkup for any improvement in web application	The prediction result is not accurate	The web application are using few machine learning algorithms	To overcome the problem we want to use better algorithm predict accurate result in mobile phones at home itself.
